Subject: Ringwood Documents OU3
Date: Wednesday, March 18, 2020 10:16:00 AM

Hi Jim – Pat Seppi has forwarded to me your questions concerning the availability of OU3 documents. Please note that the OU3 Proposed Plan is available on EPA's Ringwood Mines site webpage by clicking on the Site Documents and Data tab, and then clicking on the FY2020 ROD AR OU3 tab under Administrative Records. Please note that the Ringwood Library has been informed to direct parties looking for Site-related documents to EPA's Ringwood Site webpage, and has been provided with the links for our webpage. Upon receipt of the NJDWSC comments of the draft OU3 FFS Report, EPA directed Ford's consultant (Cornerstone) to prepare a response for EPA and NJDEP consideration. Upon receipt of Cornerstone's response, representatives of EPA and NJDEP, including agency geologists, participated in a conference call with Cornerstone to discuss their response. EPA and NJDEP representatives were in agreement with Cornerstone's response to the NJDWSC's major comments on the FFS Report. EPA discussed our position with regards to the NJDWSC's comments during the May 2019 CAG meeting. I am currently working from home and may not have access to Cornerstone's response letter. If I find a copy of the response, I will provide it to you.
